WHY DO MEN WEAR BEARDS?

When you see a man with a beard, doesn't he somehow look impressive and
important? In the history of man, this has been the way people looked upon beards.
It was a sign of manhood.

That's why you will find that in ancient times, when an important person was
shown, he was usually shown with a beard. The Greek god, Zeus, was shown with
a beard; drawings representing God showed a beard; Abraham and King Arthur
were always pictured with beards.

In western civilization, there is no general rule about beards. Sometimes they were
considered unfashionable and not worn by men. Then the style changed and beards

became popular again. The kings of England, who set the fashions that men followed, demonstrated different tastes for beards. For example, Henry II had no beard, Richard II had a small beard, Henry III had a long beard.

By the middle of the thirteenth century, most men were wearing full and curled beards, and it was common in the fourteenth century. Then beards disappeared again during the fifteenth century. It was Henry III who made the beards fashionable again.

During the time of Queen Elizabeth I, lawyers, soldiers, courtiers, and merchants - all had beards. But when Ann became queen of England, nobody who was anybody wore either a beard or moustache, or whiskers. In fact, when George III was imprisoned and his beard was allowed to grow, many of his followers felt this was the most horrible and insulting thing of all.

So you see that shaving the beard off for a man has not been a question of having a razor. These have existed for thousands of years. To wear a beard or not has been simply a question of style.

WHITE ROOFS FOR A BRIGHT FUTURE!

The effects of global warming are becoming more and more noticeable with the passing of the years. The number of floods, storms and heatwaves has increased as a result of carbon dioxide (CO₂) and other greenhouse gases that do not allow the sun's heat to escape the Earth's atmosphere. However, a simple and quite possibly effective idea has been suggested as a way to help lessen the consequences of climate change.

Professor Steven Chu, the US Energy Secretary and a Nobel Prize winner, suggests that painting our rooftops white will help the Earth's temperature to drop. The idea is that if enough surfaces - rooftops, pavements, roads - are painted white, more sunlight will reflect off these surfaces and go back into space. This will help cool our planet down.

According to scientists, if rooftops and roads were painted white it would reduce the amount of CO₂ by billions of tons. This would be the same as taking every car in the world off the streets for 11 years. Not only this, but homes with white rooftops and cars that are painted white wouldn't absorb so much heat from the sun. This means that they would be cooler and people wouldn't have to turn on their air conditioners as much. Consequently, we would save more energy and reduce the amount of CO₂ released in the atmosphere.

Although the idea of white rooftops has been generally welcomed by the scientific and environmental communities, there appear to be a few problems. One of these is the fact that the colour white would be too bright if it was painted on too many large surfaces. Another concern is that keeping the white surfaces in good condition for a long period of time would be too expensive.

Pessimists feel that though painting rooftops and pavements in light colours is good in theory, it is just a very small step to take towards reducing the Earth's temperature. What we must remember though, is that there is not one solution to global warming. It's the combination of different methods that will help our planet get back on its feet.

6. There has been an increase in the amount of greenhouse gases in recent years.....
7. Professor Chu suggests painting every large surface on Earth white.....
8. Buildings with white roofs don't need air conditioning.....

Do's and Don'ts of Classroom Behaviour

Since school is the place where you spend a good part of your day, it's a good idea to have a few rules regarding classroom etiquette in mind.

To begin with, it's always nice to greet your teacher and the other students when you walk into the classroom. If you go to class after the lesson has already started, it's polite to apologise to your teacher. During the lesson, you need to respect your classmates, as well as your teacher. That means you should pay attention to others when they're speaking to the whole class, and you shouldn't talk to those next to you while the teacher is trying to explain something.

Of course, all this doesn't mean that the classroom environment needs to be strict and boring. Your teacher will certainly appreciate it if you have something funny to share with the rest of the class. Also, if you have any fresh and creative ideas about a class project or trip, your teacher will be more than willing to hear about them. After all, teachers run out of ideas too! Remember,

teachers were once students themselves, and they know very well that every now and then, the class needs to do something different from their usual routine and, above all, they know that learning should be fun!

6. You should never talk when entering the class.....
7. If you are late, you need to bring a note from your parents.....
8. You should never talk in the classroom.....
9. It's OK to tell a joke in the classroom.....
10. You should feel free to make any suggestions related to school matters to your teacher.....

A)The early history of Canada is a story of fish and fur. But after the World War II, Canada began to develop its own industries, such as producing cars and airoplanes. Today, Canada is the largest producer of nickel. It supplies the world with iron and copper as well as wood, paper, oil, gold and silver. Canada now has moved swiftly with research and development in fibre optics and communications.

B)Canada has a reputation for being a mosaic of world cultures. About 40% of Canadians are of British origin. French descendants of the French adventurers live in Quebec. The French language they speak is unique. Words, grammar and even pronunciation still have connections with seventeenth-century French. Canada's third-largest ethnic group is German. Then come Italians, Ukrainians, Dutch, Greeks and Polish. Toronto, the centre for international immigration, is one of the most cosmopolitan cities in the world.

C)With so much winter and snow, it is not surprising that Canadians are good at winter sports. Ice hockey (simply called hockey) is a national pastime and it is so popular that it is more of a religion than a sport. This is especially true in Quebec, home of the Monreal Canadiens, one of the most successful professional sports teams anywhere. Other popular spectator sports include curling and football. The official national summer sport is lacrosse.

D)Canada's two official languages are English and French. They are the mother tongue of 60% and 23% of the population respectively. You can notice the both languages on highway signs, maps, tourists' leaflets and all types of packaging. Canadian English contains elements of British English and American English in its vocabulary. The five most widely-spoken non-official languages are Chinese, Punjabi, Spanish, Italian and Arabic.

E)The school summer vacations are from the end of June to the early September. On the first Monday of September the Canadians have Labour Day. Originally, it was an occasion to celebrate workers' rights. Nowadays this holiday is, first of all, an opportunity to spend time in the countryside, or have picnics or other outdoor activities with family and friends. For students, the Labour Day is the last chance to have a party before the new academic year.
